Tooliz – Ultimate Tool Box

Fact sheet · Studioz

Tooliz is a free Android app that puts 42 everyday tools — spirit level, sound meter, QR scanner, PDF tools and more — into one toolbox that works offline and needs no account.

Tooliz is an all-in-one Android toolbox with 42 tools in 10 categories: measurement sensors, productivity, sound and music, NFC and QR codes, network, text and translation, PDF and images. Most tools work offline and no account is needed. It is free, with ads that can be removed with a one-time purchase.

Download	https://play.google.com/store/apps/details?id=com.quentinrg.tooliz

WHAT MAKES TOOLIZ DIFFERENT

- Offline first — Most tools run entirely on the phone and keep working without a connection.
- No account — No sign-up, no email, no login: open the app and use it.
- No dark patterns — No fake countdowns, no subscription traps: ads go away with a single one-time purchase.
- One developer, in Paris — Designed, built and maintained by Quentin, an independent developer.
- Shaped by its community — Users suggest and vote for new tools on the Tooliz Discord server.
